IVC Advantages

IVC team strives to ensure our customers value our services because we provide integrated one-stop, end-to-end solutions from market insights to market ready products.

From Mass to Niche

We provide a variety of product solutions for mass market such as Vitamins, Heart and Brain Health, General Health, Bone Health, Joint Health.

With the rising consumer awareness on a variety of emerging health benefits, we've been developing product pipelines for Mental Health, Stress Relief, Women's Health, Cognitive Health, Digestive Health.

Global Market Insight - "IVC Analysis"

We take pride in being able to provide our industry leading knowledge and global insights to our customers. Leveraging our Global Innovation & Market analysis teams and worldwide market database, we keep our customers at the forefront of the latest industry and market trends to support successful data-led product solutions.

Innovation and R&D

We take a holistic approach towards innovation. We are capable of developing innovative dosage forms using our in-house R&D incubator. From ingredient selection and formulation development to sensory and stability studies, we adopt an integrated product development (IPD) system to provide a one stop service to our clients.

Client Success Support

From market insight to product commercialization, we work closely with our clients to help them gain an in-depth understanding of product knowledge.

We support our clients with complete tools of marketing literatures as well as product trainings both live and virtual.

IVC Quality

Quality has always been and always will be the key to our success. IVC deeply believes in **Quality supplements through quality manufacturing.**

Global Quality Vision and Practice

We are a global network of multiple cGMP compliant manufacturing facilities. Our regular networking and communication ensures we have a better understanding of regulatory frameworks and requirements across different end markets. We provide regulatory expertise to our customers worldwide.

Global Quality Compliance

IVC global facilities are designed and equipped with the latest state-of-the-art manufacturing equipment and machinery. Our manufacturing process is conducted in strict compliance with cGMP requirements of major global markets including USA, China, EU, Canada, Australia.

Full-service Lab

Across all of our sites and at our in-house full service laboratories, our experienced team follows proven SOPs and conducts rigorous and frequent tests on raw materials, finished products and packaging. Our own full-service lab in JingJiang, China is accredited by China National Accreditation Service (CNAS) for conformity assessment.

IVC Dosage Forms

Tablet

Tablets are one of the most common application modes in the global nutritional supplement sectors. As a leading provider of tablet solutions, IVC regularly handles all types of tablets including Color-coated Tablets, Sublingual Tablets, Micro-effervescent Tablets, Time Release Tablets, Effervescent Tablets, Chewable Tablets.

Hard Capsule

We offer a wide range of capsule materials, designs, sizes and colours. With our diverse portfolio, we can provide solutions that best fit the characteristics required by our customers, including optimising the delivery to the body, as well as capturing lifestyle, cultural and dietary preferences of consumers.

Softgel

Softgels are widely used across the nutritional supplements sector, particularly within the cardiovascular, brain and vision health categories. As well as simple oil and paste softgel capsules, IVC also has the capability to produce enteric-coated capsules, in addition to chewable flavoured softgels (chewable burstlet) and our own patented vegetarian softgels (iVgel®).

Probiotics

Probiotics have high market recognition and are widely used in the fields of Intestinal Health, Oral Health, and Female Personal Care. IVC has an independent probiotic production workshop with advanced production process, ensuring the stability of live bacteria during the production process.

Gummy

Vitamin gummy is one of three top-selling dietary supplement dosage forms in the U.S. And Melatonin Gummy, Apple Cider Vinegar Gummy, Multivitamin Gummy, Ashwagandha Gummy, Collagen Gummy are trending. Gummy can also increase the compliance. If your target customers are children, teenagers and young adults, vitamin gummy would be a good choice.

FruitBitz™

We're not your traditional gummies, instead, we're fruit puree & juice concentrate based bites made with real, farm grown fruits. And that's what sets us apart. Our flavourful, fruit-powered vitamin bites are formulated to meet your needs for daily key nutrients as well as enjoyable taste. We're made without artificial colors, or flavors, sweeteners, or preservatives.

Liquid

A popular nutrient delivery system in sport nutrition, VMS and nutricosmetic market. Liquids have a high bioavailability and become a quick and easy way for your customers to get the most out of your formulation.

Powder

Powder has become more and more popular in the market because of its multiple types. Products including vitamin, protein, probiotics and other dietary supplement powder account for a large part of the market, especially protein powder. Apart from regular Protein powder, IVC is also capable of developing and manufacturing protein powder featuring low GI (low Glycemic Index).
